

Ensemble statistics vs lag time (n_particles=1000, n_lags=50)
Dashed line = max lag used by pipeline (min_steps/2 = 437 steps)
Red dotted lines = lags [1, 5, 13, 45, 125] steps (t = 0.016, 0.08, 0.208, 0.72, 2)
